[Spoken]

Jenny

Um I don't know if that's you but that didn't sound like you

But you know, it's a funny world where machines can replace people

Whoever that was

Um

Tell Jenny that Regina called her

And P.S.

I can't believe what he did

[Sung]

All the evidence points in one direction

Since I don't need you physically around I've got your voice on tape

I've got your words in me

I don't want anything else

I don't want anyone else

Thing that I had that I dropped

All that I had but I dropped

I want you back and forth

I want you up and down

I want you inside out

[Spoken]

I was hoping you could keep me company for the ride home

But it's okay if you're sleeping

Um

[Sung]

I've got your voice on tape

I've got your words in me

I don't want anything else

I don't want anyone else

And you say that I don't have this down

I've been practicing out loud

[Spoken]

I just wanted to call to say hi

And um

I think I might bring Marissa and Tracy up to Topeka

That's it

[Sung]

I want you back and forth

I want you up and down

I want you back and forth

(I've got your voice on tape)

I want you up and down

(I've got your words in me)

I want you back and forth

(Thing that I had but I dropped)

I don't want anyone

I don't need anyone else

(All that I had but I dropped)

I've got your voice on tape

I've got your words in me

I've got your voice on tape

(I've got your words in me)

I've got your words in me

(I've got your voice on tape)

I've got your voice on tape

(I've got your words in me)

I've got your words in me

(I've got your voice on tape)

(I don't want anything else)

(I don't need anyone else)

All the evidence points in one direction

Since I don't need you physically around
