You called me up and I came to see you

You say you been awake all night

It hurts me deep inside when I see you cryin'

Whatever's wrong, I'll make it right

If you understand how I feel

You should know that my love is real

Tell me what you want me to do

My love is always here for you

Tell me what you want me to do

My love is always here for you

So tell me what you want me to do

There were times when I didn't show it

Just how much I care for you

Now don't stop keep sayin' it's too late... to think it's
over baby

After all that we've been through

Girl, I'm beggin' you

I'm down on my knees

Don't walk away baby please don't leave

Tell me what you want me to do

My love is always here for you
Tell me what you want me to do
My love is always here for you
So tell me what you want me to do
Girl I know that we can work it out somehow
Isn't that what love is all about
I'm gonna see it through this time
I won't let you slip away
Say you'll stay with me
Stay with me girl
'Cause you're the finest girl that I've ever seen
Tell me, tell me what you want me to do
My love is always here for you and only you
Tell me what you want me to do
My love is always here for you
So tell me what you want me to do
So tell me what you want me to do
