i know you're looking for a start and stop
and i could give you what you want, oh yeah
i know you're looking for a start and stop
and i could give you what you want, oh yeah

bring yourself just a little closer, baby
you know what i like
give me something that will roll me over, baby
i don't want to feel like me tonight
make it real, make it right

i know you couldn't lay a finger on
but still you're sure that's something wrong, oh yeah
i know you couldn't lay a finger on
but still you're sure that's something wrong, oh yeah

bring yourself just a little closer, baby
you know what i like
give me something that will make me crazy, baby
i don't want to feel like me tonight
make it real, make it right

give me the smallest part of you
i need to know right now
if you're going
if you're going
if you're going...
well i wanna go there too
i wanna leave with you
i wanna go there too
i wanna leave with you
i wanna go there too
i wanna leave with you
i wanna go there too
i just wanna be with you
