### "Transmitter Failure"

Visit "[Transmitter Failure](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There's a lot of words in the English language  
And I'm just getting started baby  
We could be here all night  
We could be here all night  
We could be here all night

You say, "I don't wanna know how you were"  
You say, "I don't want the pieces  
I just want the break"

There's entire words that will carry the meaning  
but I keep stumbling on the first one  
We could be here all night  
I could put you to sleep  
We could be here all night

You say, "I don't wanna know how you were"  
You say, "I don't want the pieces  
I just want the break"

Days don't mean anything  
I'll wait 'til I can offer you my  
Words don't change anything  
I know it's coming soon  
I know it's coming soon

You say  
You say

You say, "I don't wanna know how you were"  
You say, "I don't want the pieces  
I just want the break"

You say, "I don't wanna know how you were"  
You say, "I don't want the pieces  
I just want the break"
