We're all gonna die...
We're all gonna die...
We're all gonna die...
We're all gonna die...

We don't know how
And we don't know when
We don't know how
And we don't know when

We're all gonna die...
We're all gonna die...
We're all gonna die...
We're all gonna die...

We don't know how
And we don't know when
We don't know how
And we don't know when

We're all gonna die...
We're all gonna die...
We're all gonna die...
We're all gonna die...

We don't know how
And we don't know when
We don't know how
And we don't know when

We're all gonna die...
We're all gonna die...
(We're all gonna die...)
We're all gonna die...
We're all gonna die...
We're all gonna die...

Whistle along if you not imomrtal...
