There's word on the street about her  
A nasty rumour  
You look up her name on the party last night  
You'll find her with another lover  
But there is no lover

She just don't want to  
Be with you  
Anymore

She just don't want to  
Be with you  
Anymore

I'm sure if I'll ask again  
She'll tell me what she's already told me  
She'll say she doesn't want to be with anyone  
Anyone and anyone only  
But there is no only

She just don't want to  
Be with you  
Anymore

She just don't want to  
Be with you  
Anymore

She just don't want to  
Be with you  
Anymore

She just don't want to  
Be with you  
Anymore
