Open eyes tell the truth  
What you planned to see was different  
What you thought, what you knew  
Or what you thought you knew about me

The distance gets real and it scars  
The timing is now 'cause I know  
That nothing can make me blind  
'Cause now I can see

Who's gonna believe you when I'm gone?  
Please don't hide away  
And who's gonna catch you when you fall?  
Please don't hide away

Wasted time, it's been years  
Since I heard the news it changed me  
I'll keep on, keepin' on  
Until I find a way that saves me

The distance gets real and it scars  
The timing is now 'cause I know  
That nothing can make me blind  
'Cause now I can see

Who's gonna believe you when I'm gone?  
Please don't hide away  
And who's gonna catch you when you fall?  
Please don't hide away

Please no, not today, no no  
Please no, not today, no

Who's gonna believe you when I'm gone?  
Please don't hide away  
And who's gonna catch you when you fall?

Who's gonna believe you when I'm gone?  
Please don't hide away

I thought so much more of you than this  
I thought so much more of you than this

I thought so much more of you than this

And now I can see  
Now I can see  
And now I can see  
Now I can  
"Cause now, no need eyes  
No need eyes like you  
And now I can see  
Now I can  
And now I can see
