Lets go to the mo 4x

I get a little then I want a lot  
I get minute then I run the clock  
See he be in it but barely hit ya spots  
So he don't get it now and I'm right up the block  
So at this time make your excuses to leave cause you  
need ya boy  
to put that fire out like right now  
Know you can come as you please and I guarantee you  
something bad now (bad now )thats right (thats right )  
Cause all your talk has been foreplay all day ( I'm  
already baby)  
I swear the touch of ya body on me (on me)  
Got me feeling like I'm the one girl we should go

Lets go to the mo  
Go  
Lets go to the mo  
Does he kiss you like that  
Lets go to the mo  
Hit it like that  
Lets go to the mo  
We should ,WE SHOULD  
Lets go to the mo  
Go  
Lets go to the mo  
Does he rub it like that  
Lets go to the mo  
Have you cumin like that

Its, its getting crowded in here I want that to myself  
I didn't plan on putting my hands on no one else  
We should go, we should go, go some where  
We should go ,we should go up these stairs  
So at this time  
Make your excuses to leave cause you need ya boy to  
put that fire out  
Like right now  
Know you can come as you please and I guarantee you  
something bad now bad now thats right (thats right)  
Cause all that talk has been foreplay all day (all day)
