Late night, just another show
Bad bitches showing me their unclothes
Maybe you twitter like yo you tore it up,
Tore it up, tore it up (toast to)

Late nights with them other chicks
They ain't gonna think I'll need another sip
Shorty know it's nothing cuz you pour it up
You pour it up, you pour it up (toast to)

Late nights, spin a couple O's
In this year, fresh gear, just another love
This right here is an open toast to overload and
overdose
Late nights late nights
Late nights late nights
Late nights

Say you got the shit to make him wanna to
Tell me baby, have you had fondue
And since I heard you planned to do it real big now
Ima do wit you big times two
That night life when the sky's dark blue
Champagne bottle poppin over wonton soup
Said what you gotta twin tell her sge can come too
Cuz I'm the bed expert where the dreams come true
Why don't you come and ride with a nigga fly chief
Fire wit nigga splur-splurge a lil on ya
Take you down town shoppin', his and her lv, she fly
with her nigga
I just wanna, I just wanna see your pussy poppin
So drunk, head so smart, booty so dumb
Aw shit, think you the one, creep through the night,
sleep through the sun
(Toast to)

Late night, just another show
Bad bitches showing me their unclothes
Maybe you twitter like yo you tore it up,
Tore it up, tore it up (toast to)

Late nights with them other chicks

They ain't gonna think I'll need another sip
Shorty know it's nothing cuz you pour it up
You pour it up, you pour it up (toast to)

Late nights, spin a couple O's
In this year, fresh gear, just another love
This right here is an open toast to overload and
overdose
Late nights late nights
Late nights late nights
Late nights

I said now who the freshest of them all
I look up in the mirror like 'what's up dog?'
Thinking that it's gonna be (a great night)
Tell the front desk I'm gonna need a (wake-up call)
I heard them pushing rhymes like (wait wait)
You know a nigga startin' to get (tore up dog)
People always askin' me where I (stay stat)
I tell them Chi town, my town (what's up y'all?)
Man, I'm takin' them down like eleven below
Hittin them now like never before
They're runnin' the town, give me the clown
Cuz either the world or the kid from the blow
Grabbin' your girl finna go to the Mo'
Rubbin' her pearl before I go to my show
In and out, it's dinner to go
If already know then you already (toast to the nights)

Late night, just another show
Bad bitches showing me their unclothes
Maybe you twitter like yo you tore it up,
Tore it up, tore it up (toast to)

Late nights with them other chicks
They ain't gonna think I'll need another sip
Shorty know it's nothing cuz you pour it up
You pour it up, you pour it up (toast to)

Late nights, spin a couple O's
In this year, fresh gear, just another love
This right here is an open toast to overload and
overdose
Late nights late nights
Late nights late nights
