Oh, Jeremih, yeah, yeah, yeah  
Oh, Jeremih, yeah, yeah, yeah  
Bring it

Her hips wave in the ocean in ways you wouldn't  
believe  
She swear that she got that potion, well I hope there's  
plenty for me  
'Cause I been searchin' for somebody to cater, cater to  
all my needs  
And you look like your willin' to do the favor

So come with me and let me work that body  
Body, body, body, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?

Yeah, we got plenty of Bacardi  
Bacardi, Bacardi, Bacardi and juice and fruit for you  
A private after party  
Party, party, party for two, for two

You can get my body, my body all over your body, baby  
Your body all over my body, girl  
You can get my body, my body all over your body, baby  
Your body all over my body, girl

I'm feelin' like I should tip ya the way you're grindin' the  
pole  
You're hot and fresh out the kitchen, here's a taste of  
that pot of gold  
You make me feel like I'm up on a vacation  
Cooler than summer breezes  
Girl, get your groove back better than in Jamaica

Hope you don't mind if I'm behind that body  
Body, body, body, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?

Yeah, we got plenty of Bacardi  
Bacardi, Bacardi, Bacardi and juice and fruit for you

A private after party  
Party, party, party for two, for two

You can get my body, my body all over your body, baby  
Your body all over my body, girl  
You can get my body, my body all over your body  
Your body all over my body

I love it when you roll  
And still manage to clasp that, clasp that ass, clasp  
that  
Just keep the candles on  
And maybe I could wax that, wax that ass, wax that

Body, body, body, body, ah ooh, ah ooh  
You know just how I like it naughty  
Naughty, naughty, naughty, do you?

Yeah, we got plenty of Bacardi  
Bacardi, Bacardi, Bacardi and juice and fruit for you  
A private after party  
Party, party, party for two, for two

You can get my body, my body all over your body, baby  
Your body all over my body, girl  
You can get my body, my body all over your body  
Get that body all over my body, girl
