One day at a time I will walk this road I've traveled so far

One day at a time well I know I will carry on

One day at a time I can see you took my life this far

One day at a time I will take this faith along

And all this hope I breathe is given by the hand that carries me

Until I'm complete and I'll take all I will

To understand this plan you have for me, for me

I've been shut up shut down held out held down

When I never knew I would, I can't feel your fullness in my life

Well I've been burned out broken torn out torn down

When I never knew I would, I can't feel your fullness in my life

One day at a time I will take these words you've given me

One day at a time I will rest in knowing you

One day at a time I will share this gift you've given me

One day at a time I will walk these valleys through

And all I know is that I see how much my heart

Is longing to be cradled by your side

And I'll give all I can to one day soon be held by your hand, by your hand

I've been shut up shut down held out held down

When I never knew I would, I can't feel your fullness in my life

Well I've been burned out broken torn out torn down

When I never knew I would, I can't feel your fullness in my life

In all these things I will press on here

I'll be with you I know it won't be long

I've been shut up shut down held out held down

When I never knew I would, I can't feel the fullness in my life

Well I've been burned out broken torn out torn down
When I never knew I would, I can't feel your fullness in
my life

Well I've been shut up shut down held out held down
When I never knew I would, I can't feel the fullness in
my life
One day at a time, one day at a time
