Just like a boat out of the blue
aimed at a target so untrue
can't punch a fist inside a glove
all we want is love

I walked into a hurricane
to fill my shoes with summer rain
I'll look for you after the flood
all we want is love(x3)

Reach through a broken window pane

Drawing your picture in the frame
I think of painting drops of blood
all we want is love(x2)

I sailed a ship that almost sank
to plant a flower in a tank
shot down a barrel of a gun
all we want is love(x3)
