{Okay, roll the drums}

I wanna girl, I wanna girl who always has the time
To send my world and count the stars above
I wanna girl, I wanna girl, who still believes in love
A someone who's sensitive enough

I wanna girl, oh, I wanna girl that I can really trust
I wanna girl, a girl, that's patient and who'll love me
when it's rough
I wanna girl, I wanna girl as smart as she's fine
Someone that I can say is mine

This girl I'm describing really does exist
Baby, have you noticed

I wanna girl like you to be with me tonight
I wanna kiss your lips and hold you close if that's
alright
I wanna girl like you, to keep the feelin' new
I wanna make the words to say the most, I love you
And your love is all I ever need

I wanna girl, a girl, who makes me laugh
I want her sentimental and to be my better half
Ah yeah, I wanna girl like the my father loves
If that's the one I'm dreaming of

Only one girl, lives up to what's on my list
So you need to know this

I wanna girl like you, to be with me tonight
I wanna kiss your lips and hold you close if that's
alright
I wanna girl like you, to keep the feelin' new
I wanna make the words to say the most, I love you
And your love is all I ever need

I wanna girl like you, to be with me tonight
I wanna kiss your lips and hold you close if that's
alright
I wanna girl like you, to keep it new

I wanna make the words to say the most, I love you
And your love is all I ever need

{This should be played at high volume
Preferably in a residential area}

Only one girl lives up to what's on my list
So you need to know this, baby

I wanna girl if that's alright, I wanna girl to hold me
tight
I want you baby, if that's alright with you
I wanna girl just like you, I wanna girl who makes me do
Do anything she wants me to, if that's alright with you

I wanna girl that's patient, I wanna girl that's kind
I just want you baby, if that's alright with you
I wanna girl who loves me, who always has the time
I just need you baby, if that's alright with you

I wanna girl like you, to be with me tonight
I wanna kiss your lips and hold you close if that's
alright
I wanna girl like you, to keep the feelin' new
I wanna make the words to say the most, I love you
And your love is all I ever need

I wanna girl like you, to be with me tonight
I wanna kiss your lips and hold you close if that's
alright
I wanna girl like you, to keep the feelin' new
I wanna make the words to say the most, I love you
And your love is all I ever need
