Visit "[Material Boy](#)" on MotoLyrics.com

I've grown up in a material world
Everything - you'll find it in these girls
Teen girl pop in all your favorite bands
Every wish is all at your command

[Chorus]

And I want to find myself in this material world
I wanna find out who's I am
Tryna find out things I never knew

Cuz I know me better than they do

We were young and I said "I love you"
Walt Disney ends it with "yes I do"
Pok mon was where our world was at
In your life, what was your master ball catch?

[Chorus]
