What We Came Here For Lyrics

They say that life is a two way street
When you're not sure
You gotta trust your feet
To know the right way

You can keep on moving with your head down or
You can stop and take a look around
And that's the choice I've made
(I made)

It's for that movie inside your head
Making memories we can't forget
And when you can't forget

You're gonna know
In your soul
That this is what we came here for
So live it loud
Here and now
This moment it won't be ignored
So why not open up that door
It's what we came here for

For every song we let play outside
And melodies we get to ride
Everytime we sing

The friends we've made
The fun we've had
Remembering's gonna make me laugh
It's a beautiful thing
(So beautiful)

I wanna send it around the world
'Cause everybody should feel this good
'Cause when you feel this good

You're gonna know
In your soul
That this is what we came here for

So live it loud
Here and now
This moment it won't be ignored
So why not open up that door
It's what we came here for

No
The fun's just getting started
Just celebrating where we are
And when you're loving where you are

INSTRUMENTAL

You're gonna know
In your soul
That this is what we came here for
So live it loud
Here and now
This moment, it won't be ignored
You're gonna know
In your soul
This is what we came here for
So live it loud
Here and now
This moment, it won't be ignored
So why not open up that door
So come on open up that door

It's what we came here for
It's what we came here
We came here for
