2 in the morning
and it's safe to say
10,000 soldiers couldn't make you stay
well heavens got the angels,
and I've met a few
they'll be rejoicing and I'll still be missing you
and no, I wont let go,
out on your own, so and me
but I still believe
time passes slow
just let her be
just let her go

pirates and treasure
both need to find
the path to each other
and leave it behind
so princess I'll see you
somewhere inside
this is the last time
and you look so beautiful
no I wont let go
out on your own
so violently
But I still believe
time passes slow
just let her be
just let her go

(guitar)

no, I wont let go
out on your own
so violently
but I still believe
time passes slow
just let her be
just let her go

mmm hmmm (humming chorus)
