### "Disintegration"

Disintegrating  
In line and waiting for somewhere to go  
And the dosage today was much too low  
I just got there and took my place  
And wondered when I lost my face.  
I think you're safe, I think I'm safe today

Disintegrating my bones are showing and my mind is  
broken,  
It's chokin' it's somewhere else  
Forever needed and no relieving when my body's  
taking, it's taking me too far  
Remembered that the world is blind to simple things  
The veins are closed the well is dry I think you're save  
I think you're safe from me.

Disintegrating my bones are showing and my mind is  
broke  
It's chokin' it's somewhere else  
Forever needing and no relieving  
When my body's taking me too far..
