Took you down for one more hit, when you gonna stop  
that shit?

'Till the next time it's OK, slowly watching your decay  
Just one more time, just one last time

Deep inside the living dead,  
Zombie fucks, retarded head,  
I know just what you will say,  
Get the fuck out of my way

Why can't you just love me like you love your fucking  
drugs,  
You tell me that you hate it but you never get enough

Guess it only mattered when,  
I turn my back on you again  
For a second I felt fine  
So I tried to save you one last time

Why can't you just love me like you love your fucking  
drugs,  
You tell me that you hate it but you never get enough  
Why can't you just love me like you love your fucking  
drugs  
You tell me that you hate it but you never get enough

Without you I found a way, and lived to fight another  
day  
Now you're gone it's plain to see, what the fuck you've  
done to me

Why can you just love me like you love your fucking  
drugs,  
You tell me that you hate it but you never get enough.
