What did you say? I couldn't hear ya from the other
room, what did you say? C'mon TELL ME TELL ME what
did that mean? Why don't
You tell me what you really think what could that mean?
SAY IT JUST SAY IT If you got something to prove prove
it, if you got
Something to do do it, if you got something to say
fucking say it SPIT IT OUT What did you say? C'mon
TELL ME TELL ME SO what was
That then? You should think before you try to speak
Don't walk away now I'm not FINISHED NOT FINISHED If
you got something to
Prove prove it If you got something to do DO IT! If you
got something to say then fuckin' say it SPIT IT OUT So
what you're
Saying is that I always seem to let you down, well I'm
sorry. Fuck it just fuck it. So what you're saying is that I
always seem
To let you down, it's so easy, Ahhhh fuck it just fuck it. I
can't hear you when you're talking to me.
