me and you
we were fine once upon a time
but as of lately we drifted apart
now it's funny how faith plays
feels like it did some replay
girl how is it all lost in no time

that's when we gave it our best
but our best couldn't handle it all
that's when we gave it our all
but our all wasn't good enough
that's when the tears came down girl
i swear it broke my heart
and i said i'll take a little (?)

when you get around your friends
you laugh like nothing's wrong
but at night when you're in bed
you cry all your tears out
now that we're friends
i'll come to hold you girl
just to make you laugh
cos i really hate to see you cry
(ooooh ooh ooh)
girl i wanna make you laugh
cos i really hate to see you cry

feel like everyday is empty
and you've held it all against
but i think it's best you move on
cos time and love is not for we
but you're still a special part of me
but right now we need to go our separate ways

that's when we gave it our best
but our best couldn't handle it all
that's when we gave it our all
but our all wasn't good enough (good enough)
that's when the tears came down girl
i swear it broke my heart (broke my heart)
and i said i'll take a little (?)

when you get around your friends
you laugh like nothing's wrong (nothing's wrong)
but at night when you're in bed
you cry all your tears out (cry all your tears out)
now that we're friends
i'll come to hold you girl
just to make you laugh
cos i really hate to see you cry
(oh ooh ooh ooh)
girl i wanna make you laugh
cos i really hate to see you cry

i know you try to sleep at night
you'd rather holding my love tight
(?)
i wish i could take your pain away
but i'm so sorry i can't stay
but (?)

when you get around your friends
you laugh like nothing's wrong
(you laugh like nothing's wrong)
but at night when you're in bed
you cry all your tears out
(cry all your tears out)
now that we're friends
i'll come to hold you girl
(hold you girl)
just to make you laugh
cos i really hate to see you cry
(oh oh yeah)
(woo)
girl i wanna make you laugh
cos i really hate to see you cry
