I'm not happy though I know I'm not sad  
I'm not... please though I can't say that I'm mad  
I've got no name for my state of mind  
call me undefined  
I'm not content though I'm not out of place  
I'm homesick though I've been home all day  
I've got no reason, reason why  
I'm undefined, yeah  
it's great, the state I'm in

colorless, no emotions within  
how I wish that I knew what was wrong this time  
call me undefined  
ohhh, undefined  
I'm lonely though I'm not alone  
she's here with me  
though it feels like her heart is gone  
how I wish I knew why  
I've been so lonely, so lonely tonight  
ohhh, I'm undefined
