"Over Absolute Black"

Visit "[Over Absolute Black](#)" on MotoLyrics.com

Evanescent figures
Walk by my side
As I silently cross
The borders of night

Their voices
Gently push me through
A solid prism of noise

I hear them
Calling my name

Take me with you
Take me through you
On a journey over
This absolute black
The ghosts of psychic collapse
Walked by my side
As I vanished through
The borders of night

Where an image of purity and domination
Painted the sky
Of pale dead colors
And swept away
The perfume of that
Fucking absolute
Black.
