This world of mine  
is a world of wonders  
This world of mine  
is a world of nightmares  
This world of mine  
is a world of wonders

Deep down under  
my house of sand and snow  
rest in silence  
And a forever changing memory  
protects me from the bites  
of conscience  
Deep down under  
Another night of wishes  
Takes the place of day

This world of mine  
is a world of wonders  
A straight line to a place  
where all the edges collapse  
This world of mine  
is a world of nightmares  
where the sides are all the same

Deep down under  
you can hear the beasts  
that crawl underneath my skin  
Deep down there  
They make strange noises  
when they crash into the walls  
Of a dream-proof reality

This world of mine  
is a precious land  
where everything's going fine  
I just need another hole  
to kill this pain that hurts  
like a nail.
