The wishing star  
Shines just by day  
At no other time, just by day

The wishing star  
Can only be seen  
When true lovers kiss  
So they say

You make a wish  
On a summer night  
Then dream til dawn  
When the sun is bright

Then kiss your love  
And look up above  
If you see a star in the blue

The wishing star  
Is shining for you  
And you know your wish  
Will come true

The wishing star  
Is shining for you  
And, oh, your wish  
Will come true

Your wish, oh  
It will come true

Kiss your love  
Look above  
It will come true
