Goin' to California, try and find my head  
Gonna swim in the ocean until I'm dead  
Let the infection spread

On my way to Texas, drive upon my ranch  
Gonna take you fishin' up Big Branch  
Well, now you're my catch

Somewhere in between  
The wrong and right, we fight  
It's fair to say that in your eyes I'm wrong  
And in my mind that's alright

Somewhere in between  
The wrong and right, we fight  
It's fair to say that in your eyes I'm wrong  
And in my mind that's alright

Off in New York City, good to see some friends  
Scatched my nose upon a barette on her head  
Laid up in a rental bed

Then back home to Seattle, fed the monkey man  
I proceed to throw up all over my hand  
Well, it ain't so bad

Somewhere in between  
The wrong and right, we fight  
It's fair to say that in your eyes I'm wrong  
And in my mind

Somewhere in between  
The wrong and right, we fight  
It's fair to say that in your eyes I'm wrong  
And in my mind that's alright

That's alright, that's alright  
That's alright
