Copacetic, calm my frenetic, she's the shit y'all  
Highly-rated, well-educated, she's an angel  
She's ambitious, beautiful, delicious, got a restaurant  
I can take it, truth stripped me naked, yeah I fucked  
up! yeah

She was my girl  
Used to be my world  
I miss my girl  
What a fine girl

She put together, says she's doing better since she let  
go  
Repeating dreamer, now and then I see her and we  
have lunch  
Ever playful, hook the jumper cable, give me fresh  
spark  
Sister ringing, old reminder stinging, bridges burned  
hoss! yeah

She was my girl  
Used to be my world  
I miss my girl

What a fine girl

She called me up, I guess she pretty stuck, she needed  
my help  
It made me happy, hence the lyric sappy, I still love  
her! yeah

She was my girl  
Used to be my world  
I miss my girl  
What a fine girl

Such a fine girl  
I miss my girl  
Used to be my world  
She was my girl
