Everywhere I go I hear the music in the streets
People pass me by, I hear the tappin' of their feet
I could get down, boys, with all that keeps goin' wrong
But I was born to sing me a dancin' song

I'm between these lines, I see the sadness in your eyes
And as I'm lookin' inside, they're sayin', "Please don't
cha pass me by"

You know that I care for you, know everything I should
So I start by takin' it where it's good

So everywhere I go I hear this musical beat
Little children pass by, I hear their laughter fill the
street
Should be sad, boys, good with what's goin' down
But I was born to sing me a dancin'

Born to sing a dancin' song
Born to sing a dancin' song
