

Jerry Jeff Walker "It Make You Want To Dance"

Visit "[It Make You Want To Dance](#)" on MotoLyrics.com

ive been gone for so long
it feels so good just to be back home
back to my friends and all the places that i want to see
like a rainbow in the sky, certain twinkle in her eye
telling me beleiving in all i want to be

(Chorus)---

dont it make you want to dance
dont it make you want to smile
when your down down down
in the country people stay a while

dont it make you want to dance
dont it make you want to smile
when your down down down
in the country people sing a while

dont it feel right tonight?
making music when your feeling right
feeling better with every single little song
look around and want a friend
everyone has found a friend
coors come around now everybod jump on
jump on

(Chorus)
