I know the best years of your life you've given them to
me
And without a man to lean on a happy future you can't
see
But try to understand my youth is whipping by me day
by day
So woman woman get out of my way
Woman woman please leave us alone
She gave me love and understanding when you were
leavin' at home
You hurt my pride that way Lord she stood beside me
every day
So woman oh woman get out of my way
[piano]
Then years gone by I've tried to reach out and get a
little love from you
But you know darlin' you were always too busy but
more important things to do

Even though now too late you realize that you needed
my love to stay
Well let me tell you somethin' woman woman get out of
my way
Woman woman please leave us alone...
Woman woman get out of our way
