Crossfire into situations time after time
We'll finish this up tonight, not somewhere down the
line
I've got few good friends by my side
And they're with me till the end of this ride
We'll never know unless we try

[Chorus]

So this time, I'm not going out like this
Caught in the crossfire
I'm seeing red
I've learned my lessons well

Crossfire into confrontations
Visions seeing red
I've been thinking this over my whole life
I've never listened to the words that they said.
I mean the odds don't mean a thing to me
And if there's heart it looks good from up here and
Are we gonna win this war? We'll never know unless we
try

[Chorus]

It's not your fault
That you don't know us
You took our time
We took our chances

[Chorus]
