Hooks cutting through your flesh  
No comparison of pleasure and pain  
Black box it's a gory treat  
Mutilation from hell

To the gory end  
As they make you ride the blade  
To the gory end  
As your life will now fade

Crave for blood, unnatural greed  
Stuck in hell forever more  
Ultimate pain, blooded corpse  
Living memory known deceased

To the gory end  
As they make you ride the blade  
To the gory end  
As your life will now fade

See the masters of gore  
Stricken with pain in hell

Hooks cutting through your flesh  
No comparison of pleasure and pain  
Black box is a gory treat  
Mutilation from hell

To the gory end  
As they make you ride the blade  
To the gory end  
As your life will now fade

Crave for blood, unnatural greed  
Stuck in hell forever more  
Ultimate pain, blooded corpse  
Living memory known deceased
