You ever felt like you've had the wool pulled right over
your eyes?

He never ever quite figured it out which path to choose
An instinct, a gut feeling, a mind's reeling over
situations

Lost into darkness, he falls away again

And the spotlight's on him and his life

He hears the call to make a move

What has he got to show for nothing

I never really did learn my lessons well

(Learn my lessons well)

You can't fight the time 'cause only time will tell

(Only time will tell)

I never really did learn my lessons well

(Learn my lessons well)

You can't fight the time 'cause only time will tell

Sometimes I wonder if I'm hearing that

Who's calling my name?

And there's something guiding me through to the end

Just take my hand

The questions with no answer

You can't stop it, it's just a feeling

How far will he go before he realizes?

The spotlight's on him and his life

He hears the call, to make a move

What has he got to show for nothing

I never really did learn my lessons well

(Learn my lessons well)

You can't fight the time 'cause only time will tell

(Only time will tell)

I never really did learn my lessons well

(Learn my lessons well)

You can't fight the time 'cause only time will tell

You gotta turn it around, gotta find a way
Gotta turn around, gotta turn it around
You gotta to turn around and it's the same
Gotta turn around, gotta turn it around
And in the end it's the same it's how you get there now
It's how you get there

I never really did learn my lessons well
(Learn my lessons well)
You can't fight the time 'cause only time will tell
(Only time will tell)

I never really did learn my lessons well
(Learn my lessons well)
You can't fight the time 'cause only time will tell
Will tell
