Yo if you don't know what the  
Things change and rearrange  
Friends aren't friend anymore  
People go behind your back to score on anything  
Will we ever have peace  
Someone tell me please

You know you will see on the block  
Kids playin hearin gunshots  
Never phased by the crimes that they witness  
Young mama right there  
Don't be cussin at your kids right there  
Put the right foundation right here (teach respect)  
So they can be

Most high (most high)  
Most high (most high)  
Most high (most high)  
Like an angel in the sky  
Most high  
Most high  
Most high  
Like an angel in the sky

Brother why you act that way (why you actin that way)  
Call your girl woman not her name  
Bringin kids in the world unclaimed  
You should know that don't make you a man at all (not  
at all)  
Young father out there (listen up)  
Don't abandon your seed out there (show we care)  
Let's get one thing clear (for real)  
Family should be

Most high (held high)  
Most high  
Most high  
Like an angel in the sky  
Most high (it's the most)  
Most high  
Most high

Like an angel in the sky

It doesn't matter where you are  
You're still a shining star ( for real)  
It doesn't matter where you're from (it doesn't matter  
where you're from)  
Let's give love to everyone (start showing more love)

Hustlers put down your guns (put 'em down)  
Self-respect is the best weapon  
Spread love show your real value  
Set a true example by starting with you  
See them kids right there  
Don't be shooting around them kids right there  
Gotta show there is hope out here  
Train yourself you can be the best

[DMX]

I only walk in the dirt, but my steps are guided  
And no matter how dark my path gets, I light it  
I ain't never been ashamed of the pain, can't hide it  
Yet the road was rough but I decided to ride it  
Step carefully, with half of me walk recklessly  
That's just an X in me, cats getting popped like ecstasy  
Yo money just sounds just like you, oh you just a extra  
me  
Give or let me fly or gimme death  
Words that I try to say with my last breath  
And if my last breath ain't long,  
I thank the lord for my life  
That way my last breath ain't wrong  
You not keeping money with the hood right here  
You don't really wanna go right there  
You gonns get left right there  
You be taking your last breathe right there
