Yo', people don't know what the world means to me
Things change and rearrange
Friends aren't friends anymore
People go behind your back to score on anything
Will we ever have peace
Someone tell me please
You know who you will see on the block
Kids playin', hearin' gunshots
Never phased by the crimes that they witness
Follow me and come and see how it got this way
Young mama right there
Don't be cussin' at your kids right there
Put the right foundation right here
So they can be
Most high (Most high)
Most high (Most high)
Most high
Like an angel in the sky (Let there be)
Most high (Good inside)
Most high
Most high
Like an angel in the sky
Brother, why you act that way
Call a good woman out her name
Bringin' kids in the world unclaimed
You should know that don't make you a man at all (Not
At all)
Young father out there (Listen up)
Don't abandon your seed out there (Show we care)
Let's get one thing clear (For real)
Family should be
Most high (Held high)
Most high (Oh, high)
Most high (Yeah)
Like an angel in the sky (It's the most)
Most high
Most high
Most high
Like an angel in the sky
It doesn't matter where you are {It doesn't matter who
You are}
You're still a shining star (For real)

It doesn't matter where you're from (It doesn't matter
Where you're from)
Let's give love to everyone (Start showin' more love)
Hustlers put down your guns (Put 'em down)
Self-respect is the best weapon
Spread love, show your real values
Set a true example by starting with you
See them kids right there
Don't be shootin' 'round them kids right there
Gotta show them there's hope out here
Train yourself, you can be most high
I only walk in the dirt, but my steps are guided
And no matter how dark my path gets, I light it
I ain't never been ashamed in the pen, can't hide it
Yeah, the road was dark but I decided to write it
Stepped carefully with half of me
Walked recklessly, that's just the X in me
Cast the part like ecstasy
I don't wanna be shot just like you
Oh, you just an ex to me, come on
People let me die or give me death
Birds ??? I say with my last breath
And if my last breath ain't long, I thank the Lord for
My life
That way my last breath is all you got
Keep your money with the hood right there
You don't really wanna go right there
How the n**** left you right there
He be takin' your last breath right there
Most high (Most high)
Most high
Most high (Yeah, yeah)
Like an angel in the sky {People come on}
Most high (Ooh...ooh...yeah...yeah...)
Most high
Most high
Like an angel in the sky
It doesn't matter where you are {It doesn't matter who
You are}
You're still a shining star {Can't believe I cast a
Silver shadow}
It doesn't matter where you're from {It doesn't matter
Who you are}
Let's give love to everyone {Can't believe I cast a
Silver shadow}
Most high {What-what}
Most high (Most high)
Most high
Like an angel in the sky {Yo', like an angel}
