Calculations, unsolved  
I'll sort it out at the end  
Apprehensions, dissolved  
Just dive right in

Let it out, what's the worst that could happen  
Let it out, it either works or it don't  
Let it out, there's no telling the best time  
Cause time is just the ticking of a clock, man

Chorus:  
I'd rather get burned (I'd rather get burned)  
I'd rather get burned than never have tried  
I'd rather get burned (I'd rather get burned)  
I'd rather get burned than never have tried

Calculations, uninvolved  
This is a current affair

Apprehensions, not at all  
We ain't racing to anywhere

Let it out, what's the worst that could happen  
Let it out, it either works or it don't  
Let it out, just enjoy the ride  
Cause it's not the destination it's the trip, man

Chorus (x2):  
I'd rather get, I'd rather get, I'd rather get burned than  
never have tried

Doomed to fail, I will always be [x2]  
Doomed to fail if I don't even try

Chorus:  
I'd rather get, I'd rather get, I'd rather get burned than  
never have tried
