It's all brand new
A precious start with the newest beginning, oh
So fresh and true
You'll just be fine if you let it to set in

(Yeah) This plague will thrive on the weary and beat
down
(Yeah) This plague will thrive in the heart of us all

Give me shelter
This place is killing me
Give me shelter
This place is killing me

Your weakness is fear, we're preying on it
Your weakness is fear
You're such a brave start and now we're preying on it
You're such a brave start and now we're preying on it

Just passing through
So out of place and feeling so uninvited, oh
Sad but true
Histories wiped out, we'll shrug it off like the next man

(Yeah) This plague will thrive on the weary and beat
down
(Yeah) This plague will thrive in the heart of us all

Give me shelter
This place is killing me
Give me shelter
This place is killing me

Your weakness is fear, we're preying on it
Your weakness is fear
You're such a brave start and now we're preying on it
You're such a brave start and now we're preying on it
You're such a brave start and now we're preying on it
You're such a brave start...

It's all brand new
A precious start with the newest beginning, oh

Cold and blue
Look on your face when all the eagles descend

Full of doubt, self conscious rides
Even at it's best, this is a suicide

(Yeah) This plague will thrive on the weary and beat
down
(Yeah) This plague will thrive in the heart of us all

Your price is set
You're bought and sold
Trapped in debt
This is a choke hold

Your price is set
You're bought and sold
Trapped in debt
This is a choke hold

Your price is set
You're bought and sold
Trapped in debt
This is a choke hold
