The system is fucked, things aren't fine  
Out of control, the world's lost it's mind  
I know this sounds like some trash from the right.  
My compassion was stolen and smoked in a pipe.

Deception and fraud,  
Too many acts to mention.  
Pushed to the end this is my declaration.  
Lost, lost, lost, I lost my faith.  
Lost, lost, trust no one.

Learned from mistakes, the lesson was heard.  
Forecast misfortune, live on your guard.  
I'm not as negative as all this sounds.  
I just feel like humanity has let me down.

Deception and fraud,  
Too many acts to mention,  
Pushed to the end this is my declaration  
Lost, lost, lost, I lost my faith  
Lost, lost, I lost my faith in the world

Rob me at gun point, with crowbars and knives.  
Smash what you want, take what you like

Lost, lost, lost, I lost my faith  
Lost, lost, I lost my faith in the world  
Rob me at gun point, with crowbars and knives.  
Don't care anymore. been robbed my whole life
