Put on your peacemaker blue  
Warrior  
Warrior  
Powder horn pepperbox boom  
Warrior  
Warrior  
Matchlock rifle cycle axe and club  
Talon dagger marble razor  
Put on your peacemaker and call upon your  
God of war  
God of war  
Enyo anat chemosh oracle  
Arm us guard us bring us home  
Stay home I beg you oh my lover  
My lover  
My lover  
Or I will not serve you as your lover  
Your lover  
Your lover  
Dita corset stocking s and thigh cuffs  
Hornet playsuit oil diamond dust  
Until you draw action from a higher resonance

I will tamp the lamp light in our window  
I will drown the fire in our bed  
Through my legs  
I'll withhold from you passage  
And from my

Lips to take  
Tongue and taste  
Sex and make  
Milk in your baby  
Swords enraged  
Fuck me babe  
Pray abstain girls reign

Put down your peacemaker blue  
Warrior  
Warrior  
Beaten and broken and bruised

Warrior

Warrior

Come and I'll unlock your chain link armour  
Seven baths absolve your blood stained honor  
Your honor  
Tell the water of  
The bread in the basket  
The game on the fire  
The milk in the jar  
The milk in the jar  
The babe in the cradle  
The mothers in bed  
Asleep in the dark  
Asleep in the dark  
You circled the cabin and broke down the door  
You broke down the door  
You broke down the door  
You emptied the cradle and ravished the bed  
You ravished the store  
And fired your torch

Now I take you to the bed and there you lay  
I drop my dress and feed your hungry eye  
Until you draw action from a higher resonance  
I will tamp the lamplight in our window  
I will drown the fire in our bed  
Through my legs I'll withhold from you passage  
And from my lips to take  
Tongue and taste  
Sex and make  
Milk in your baby  
Swords enraged  
Fuck me babe  
Pray abstain girls reign
