Stolen crown
pillow down
all tangled in my hair
evening gown
the lights downtown
all dangle in the air

the gates of heaven open
and there is me
on the silverscreen
i hope they did good editing

bell and beau
buck and doe
a love of tender age
jill and joe
dosy do
a tragedy on stage

the gates of heaven open
and there is me
on the silverscreen

i hope they did good editing

bye bye baby bye bye
hello to my beautiful mind
bye bye

crystal ball
padded walls
a bright blue t.v. glare
a moth to light is as lost as i'm found
far down cellar stair

the gates of heaven open
and there is me
on the silverscreen
i hope they did good editing
bye bye baby bye bye
