## 1st Verse:

When we first started going out I knew it wasn't right  
You always made me feel like I was too afraid to try  
And now it seems that in the end you wanna start a  
fight  
And I can't take it no more  
I'm getting sick and tired

You used to really love me  
Now you can't look me in the eye  
And all these tears are pouring  
They flood my eyes

## Chorus:

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back

## Hook:

You've been trouble (?)  
Know that (?)  
Get me (?)  
Get me all nuts (?)

## 2nd Verse:

The rules are no more late night phone calls  
Acting like you get enough  
When you hear my footsteps down the hall  
And I won't take any of your lies  
Wastin' all of my time  
Seems you're never satisfied

Our love has almost ended  
'Cause you don't treat me right

Chorus:

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back

Bridge:

And I'm not trying to complicate things  
But this game you got playing with my heart  
Is finally ending

Chorus:

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back

You can beg, you can plead  
You can bleed, Imma leave  
Imma leave, 'cause you made it like that  
I hit the door but I stopped in my tracks  
Love, love, brought me right back
