said i never should of gave my heart  
i never should of gave you my love yeah  
i never should of took it there  
never should of even care  
never should of made love to you baby  
now i'm sitting with memories  
day dreaming how it use to be  
i remember kissing in the park  
remember playing in the dark  
remember how you broke my heart  
i thought your love was true  
i gave my world to you  
i would've died for you  
lived and breathed for you  
now i'm down to my last cry

you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of  
you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of

said you never once apologize  
you never try to compromise yeah  
so many times you told me lies  
many times i tried and tried  
many times i ask myself why  
i try my best to stay in love with you  
i try my best to stay and hold on  
sometimes, i gave you all of me  
you got the best of me  
there's no more you and me  
i thought your love was true  
i gave my world to you  
i would've died for you  
lived and breathed for you  
now i'm down to my last cry

you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of  
you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of

why we keep going through this  
over and over again  
i know how you feel about me  
baby please it's the end  
my love is all i have  
and it's just for me  
i got something to tell you  
i had to go let it go  
baby cos we are through

you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of  
you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of

i told you once before  
you won't be the one  
(you won't be the one that i miss no more)  
you won't be the one  
(you won't be the one that i kiss no more)  
you won't be the one that i miss, that i kiss  
that i love and thinking of

you won't be the one that i miss no more  
you won't be the one that i kiss no more  
you won't be the one that i miss, that i kiss  
that i love and thinking of
