Velocity I give it how I live it
This ain't a gimmick, take time and I bend it
Voltage Electrify the public
Makin' sure my songs tight so everybody love it
Vociferous I come from proud stock
I got that loud talk that makes the crowd flock
Volume Pump this up 'til the speakers blow
Maximum bass rattle trunks from the 808's
Vernacular Spectacular for the ladies
Like rollin' in Mercedes, women want to have my baby
Verses From Venezuela to Venice
Renowned words found compounded in each sentence
Voracious Tremendous appetite for hip hop
Since the days of Eazy E, Cool J, and the Beasties
Vocab I got the gift to gab,
So throw your hands up and keep stackin' grands up,
c'mon!

Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind

Volatile Any second I'll go off
Show off in any freestyle, that I be wild
Vortex Like D O C's whirlwind pyramid
Your rhymes suck, mine are funky enough, kid
Victimize Other rapper's stay tight-lipped
I'll put your whole rap career in a vice grip
Vicious That's mean-streaked malevolence
Tearin' up MC's until there's no evidence
Venomous Spit poison to paralyze
Pulsin' through your veins from this cobra's fangs
Vigorous That's how my blood boils
Strength in my cells make the suckas recoil
Vile An evil personification
A mixture of Michael Myers, Freddy & Jason

Volcanic Like Vesuvius to Pompei,
Eruptin' with force, and now can't nobody stop me

Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind

Valiant Deserving much praise
Been keepin' it real since back in the days
Vane Frontin', flossin', & flexin'
Thinkin' I'm the greatest over Kanye Westin'
Visionary Takin' over the scene
Fine ladies, I can see myself in those jeans
Venturous Been to Europe and back
Straight-up legit, put my name on the map
Vivacious Livin' life to the fullest
Lovin' how I'm livin', every blessing that I'm given
Vital Like the scriptures in the bible
I got the rhyme recitals that are key to raps survival
Vibe That hip hop feel, you feel me
Found in the fragments of my DNA
Victorious Game over, done deal
The best of the best, representin' from the west

Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
Everybody in the front bounce
Everybody in the back bounce
My words defy definition
And my definitions defined to blow your mind
