I make it look good like a Paris runway
Big-time ballin' every given Sunday
MVP ? I B the V
Dressed to the nines livin' comfortably
Cushy lifestyle but I'm still grindin'
Climb in baby cuz now's the timin'
Hit the strip, we're freshly dipped
Haters flip out and bite their lip
My way's fancy ? yours is shmancy
I pull honeys from limos dancing
Out the window to yours truly
Flashin' skin for their chance to rule me
In the bed cuz I got bread
With stylish threads that's turnin' heads
Cash rules everything around me
So I show up and show out nightly

That's right I make it look good
Make it look good like a true playa should
That's right I make it look good
Ladies all 'round wish that the V would
That's right I make it look good
Put me in the game cuz I got that wood
Good ? good ? good ? I make it look good

I can make it look good without even tryin' it
Think you got style like me, I ain't buyin' it
Prada & Gucci ain't on me
But I'm still top-notched and dressed to the T
The V's the epitome of silky smooth
Take notes and I'll teach you how to be cool
It ain't from dress ? it's a state of mind
Don't need bling, but you can still shine
Believe in yourself that you're the bomb
Get up ? get dressed ? do no wrong
Whatever's your game mein, you're a scholar
Brush off haters and pop your collar
Step out clean with the sheen lookin' mean
And you're on the same level as the beauty queens
Yeah! Dress to impress and the rest will follow suit
Like a three piece suit dude

That's right I make it look good
Make it look good like a true playa should
That's right I make it look good
Ladies all 'round wish that the V would
That's right I make it look good
Put me in the game cuz I got that wood
Good ? good ? good ? I make it look good

Kicks ? check. Fits ? check.
Game ? check. I make it look good.
It's easy for me to make it look good
Got exquisite style that brings in smiles
Check the resume and my references
Slick from my words to my sentences
Fly impressions like Van Gogh
Modern-day Michelangelo
With superior swag that's good to go
Wanna kick it with V? Up your dress code
Get like me and set those trends
Way too fly for an S-Class Benz
Just ride out and feel the breeze
Shake off fleas and the paparazzi
How does the V make it look easy?
Ef-fort-less-ly

That's right I make it look good
Make it look good like a true playa should
That's right I make it look good
Ladies all 'round wish that the V would
That's right I make it look good
Put me in the game cuz I got that wood

Ay, make it look good wherever you go ? whatever you
do
Ain't nothin' wrong with lookin' the part if you still keep
it real feel
Yeah, just make it look good
The V! makes it look good
All the time, everyday
I make it look good
