"Outer Space"

There's nothing more I'd like to give you
The moon, the sea, the sun, the stars
Grab a bunch of solar systems
Stuff them in a cookie jar
Come and fly with me to outer space
Skinny dipping in the Milky Way

I'd like to be your superhero
Watching over from above
Even with a billion people
I could see just where you are
Come and fly with me to outer space
Skinny dipping in the Milky Way

I wanna tell you that I love you
I wanna be the one that takes you to the stars
My super powers fade around you
My head is spinning round, but we can touch the
ground
Come and fly with me to outer space
Skinny dipping in the Milky Way

Gonna write the largest poem
Print it on the big blue sky
Telling everyone I love you
Have the when, the where, the why
Come and fly with me to outer space
Skinny dipping in the Milky Way

I wanna tell you that I love you
I wanna be the one that takes you to the stars
My super powers fade around you
My head is spinning round, but we can touch the
ground
Come and fly with me to outer space

I wanna tell you that I love you
I wanna be the one that takes you to the stars
My super powers fade around you
My head is spinning round, but we can touch the
ground (2x)

Come and fly with me to outer space
Skinny dipping in the Milky Way
