I've been taking this time you've been wasting to write
down what's inside
Of my mind that's been so hard to find since you came
along and took me for a ride
Let's get together in spite of the weather I'm floating
here until we all capsiz
I'll think of you

Holding off till someone shows me
Holding on till someone knows the way

I'm sedated and self medicated now I can't hear your
pleas
Getting higher I've drawn friendly fire, this tight rope
walk is murder on my knees
It's an art that gets lost from the start you can paint it
now anyway you see
Still think of you

Holding off till someone shows me
Holding on till someone knows the way

I'm waiting for you to understand
I'm waiting for you to tell me its all OK
Anything you want now
Anything you need now
I couldn't get for you
Its broken hearts that don't pass start
Its broken dreams that drive you like they do

Feel mostly dead now
somehow slightly alive
Caught in your head wind
dead spin
I'm earthbound
one last
round
So dead tired
Now of you

Holding off till someone shows me
Holding on till someone knows the way

I waited for you to understand

I waited for you to tell me it would be OK
