i am shit but at least i am me.
i am scarred with malfunction disease.
i am blackness of heart, mind, and soul.
i am that whick you cannot control.

i am shit but at least i am me.
i am scarred with malfunction disease.
i am blackness of heart, mind, and soul.
i am that whick you cannot control.

i am shit but at least i am me.
(suffer til the end)
i am scarred with malfunction disease.
i am blackness of heart, mind, and soul.
(suffer til the end)
i am that whick you cannot control.
