Now I've got a reason to die. Burning in my heart.  
Now I've got a reason to kill.  
I'm right back where I started from but I don't know  
when.  
Hold on tight as we face the end  
because I've got a feeling  
We are dying again.  
Ain't got no reason to live.  
Not here anymore.  
Ain't got no reason to try.  
I'm walking out that door to things on the other side.  
Ripping reality open wide.  
and I've got a feeling your terrified  
Now I've got a reason to die.  
Burning in my heart.  
Now ive got a reason to kill.  
I'm right back where I started from.  
but I don't know when.  
Hold on tight as we face the end.  
because I've got a feeling  
We are dying again.
