Visit "[Rotted Earth](#)" on MotoLyrics.com

Your rotted earth will be the downfall of your soul  
Your rotted earth will never ever let you go...  
and in the face of what has come to an end  
your rotted earth will never ever be again  
Your rotted earth will be the conflict of your kind  
Your rotted earth will come and leave your world  
behind...  
and in the face of what has come to an end  
your rotted earth will never ever be again  
Your rotted earth will take you far beyond the veil  
Your rotted earth will never let you live to tell...  
and in the face of what has come to an end  
your rotted earth will never ever be again.
