dark priestess comes to me in spite
sucking unholy delight
she spits my dicksnot out, onto the wall
with a, "fuck it all!"
and she makes my body ache
i can feel the mental break
how will i last a single minute more with this pagan
whore
all i know is she is mine
and i am hers and thats just fine
to fuck so fierce we lose our minds
two beast in heat until we die
and i would kill the world for you
if you only ask me to
my sorceress, what would you have me do
