Would you come out
And play if I asked you
Take five minutes off of work
Just to call and say I miss you

See you can make it better
Would you be the spark
That keeps us together
An keeps us together(oh oh hoo hoo)

Would you force me to leave
And hang with my friends
Wake me up in the morning
And get me out of bed
Sitting listen to records on Sunday(an)
Be hungover on Monday

But I don't know(oh)
See I don't know
Just where to go
And I'll never know
Never know(oh)
If you were even out there
Waiting for me
But I'm willing to find out

Gonna find you someday, someday.
I taking off like a plane on a runway.
To find your love and I said,
Oh yeah baby say oh yeah baby.
Could you hold on tight,
Hold on tight tonight.

Light me a good girl with the lime light.
The kind of girl,
(That)think she right all the time.
Am I asking for to much,
I just want someone to touch.
All nigh
(Ah ah ah ahh ahh)
(Ah ah ah ahh ahh).

But I don't know(oh)
See I don't know
Just where to go
And I'll never know
Never know(oh)
If you were even out there
Waiting for me
But I'm willing to find out

Gonna find you someday, someday.
I taking off like a plane on a runway.
To find your love and I said,
Oh yeah baby say oh yeah baby.
Could you hold on tight,
Hold on tight tonight.

See I'll never know
Which direction to go
I'm trying to find any sign
But I don't know
The factor that never knowing
Where my heart say we're going
But I'm gonna find, find(ah ah ind)
I find you(oh)

Gonna find you someday, someday.
I'm taking off like a plane on a runway.
To find your love and I said,
Oh yeah baby say oh yeah baby.
Could you hold on tight,
Hold on tight tonight.

I'm gonna find you someday, someday.
I'm taking off like a plane on a runway.
To find your love and I said,
Oh yeah baby say oh yeah baby.
Could you hold on tight,
Hold on tight tonight.
